

## 2018 German Exchange

Hello, my name is Ida. I am 14 years old and I am from the Lloyd Gymnasium in Bremerhaven. Last Wednesday we went for a 6 day exchange to Whitby. My exchange partner was a boarder, so I boarded too. I was very sad to leave Fyling Hall School, because I want to stay here forever! The nature and surroundings around the school house are amazing and I found many new friends because I was a boarder. Usually I am in class 8 but at Fyling Hall I was in class 9 with Mr Instone. I thought that Thursday was one of the best days. It was my birthday and in the afternoon we had games. As the weather was so warm we went to the beach and played games there. Saturday was also cool because we visited Whitby with our exchange partners.

Hello, my name is Katharina and I am from the Lloyd-Gymnasium in Bremerhaven, Germany. I did the German exchange for 6 days. It was quite interesting and exciting to see how the school system works here. My exchange partner doesn't live at the school so I lived in her house.

On Wednesday when we arrived, everyone was very tired because of the long journey. We set off at 9 o'clock in the morning and we arrived at 8 o'clock in the evening. On the next day we all went to different classes and the lessons are very different than the lessons at our school. I think we all experienced a lot and had much fun.

Hello, my name is Merle, I am from Germany and I am 14 years old. I did an exchange to Fyling Hall School for 6 days. It was a very interesting experience and I noticed lots of differences.

My exchange student was a boarder, so I joined her. The landscape around the school is very nice and you can see the sea from some places. I also liked the boarding house and the dorms in it. The rooms were very cosy. The lessons were really different from the lessons at my school in Germany. It was not as difficult as in Germany and it was easy for me as a German to understand the content of the lesson. Also, the system of learning was very different. After school you had the opportunity to do activities such as football or hockey. With our exchange group we had trips to Whitby or to Robin Hood's Bay. Both are very nice tourist places.

I really enjoyed the exchange and I like Fyling Hall School very much. I have learned lots of things about going to school in England.
